

Publications MDF

A) Publications on International Journals

- 1) Siracusa, G., De Felici, M., Coletta, M., and Vivarelli, E. (1978). Inhibitors of protein synthesis increase the agglutinability mediated by Concanavalin A of unfertilized mouse eggs. *Dev. Biol.* 62 (2), 530-533.
- 2) Siracusa, G., Whittingham, D. G., Codonesu, M., and De Felici, M. (1978). Local anesthetics and phenothiazine tranquilizers induce parthenogenetic activation of the mouse oocytes. *Dev. Biol.* 65, 531-535.
- 3) De Felici, M., and Siracusa, G. (1980). Changes in Concanavalin A-mediated agglutinability of mouse oocytes during meiosis. *Dev. Biol.* 76, 428-434.
- 4) Siracusa, G., Whittingham, D.G., and De Felici, M. (1980). The effect of microtubule and microfilaments disrupting drugs on preimplantation mouse embryos. *J. Embryol. Exp. Morph.* 60, 71-81.
- 5) De Felici, M., and Siracusa, G. (1981). Fertilization-induced changes in Concanavalin A binding to mouse eggs. *Exp. Cell. Res.* 132, 41-45.
- 6) De Felici, M., Vivarelli, E., Giustiniani, Q., and Siracusa, G. (1982). Reversible inhibition of meiosis resumption in mouse dictyate oocytes by sub-optimal media. *Cell. Biol. Int. Rep.* 6, 99-103.
- 7) De Felici, M., and Siracusa, G. (1982). "Spontaneous" hardening of the zona pellucida of mouse oocytes during in vitro culture. *Gamete Res.* 6, 107-113.
- 8) De Felici, M., and Siracusa, G. (1982). Survival of isolated, fully grown mouse ovarian oocytes is strictly dependent on external calcium. *Dev. Biol.* 92, 539-543.
- 9) De Felici, M., and McLaren, A. (1982). Isolation of mouse primordial germ cells. *Exp. Cell. Res.* 142, 476-482.
- 10) De Felici, M., and McLaren, A. (1983). In vitro culture of mouse primordial germ cells. *Exp. Cell. Res.* 144, 417-427.
- 11) Vivarelli, E., Conti, M., De Felici, M., and Siracusa, G. (1983). Meiotic resumption and cAMP intracellular levels in mouse oocytes treated with compounds which act on cAMP. *Cell Diff.* 12, 271-276.
- 12) De Felici M. (1984). Aspects of germ cell differentiation in the mammalian embryo. *Arch Ital Anat Embriol* 89, 13-30.
- 13) De Felici, M. (1984). Binding of fluorescent lectins to the surface of germ cells from fetal and early postnatal mouse gonads. *Gamete Res.* 10, 423-432.

- 14) De Felici, M., Boitani, C., and Cossu, G. (1985). Synthesis of glycoconjugates in mouse primordial germ cells. *Dev. Biol.* 109, 375-380.
- 15) De Felici, M., and Siracusa, G. (1985). Adhesiveness of mouse primordial germ cells to follicular and Sertoli cells monolayers. *J. Embryol. Exp. Morph.* 87, 87-97.
- 16) De Felici, M., Salustri, A., Siracusa, G. (1985). "Spontaneous" hardening of the zona pellucida of mouse oocytes during in vitro culture. II. The effect of follicular fluid and glycosaminoglycans. *Gamet. Res.* 12, 227-235.
- 17) Salustri, A., Petrungaro, S., De Felici, M., and Siracusa, G. (1985). Effect of follicle stimulating hormone on cyclic adenosine monophosphate level and on meiotic maturation in mouse cumulus cell enclosed oocytes cultured in vitro. *Biol. Reprod.* 33, 792-802.
- 18) De Felici, M., Eusebi, F., and Fratamico, G. (1985). Cell-to cell electrical coupling in seminiferous cords of mouse fetal testis. *Cell. Biol. Int. Rep.* 9, 825-832.
- 19) De Felici, M., Heasman, J., Wylie, C. C., and McLaren, A. (1986). Macrophages in the urogenital ridge of the mid-gestation mouse fetus. *Cell Diff.* 18, 119-129.
- 20) De Felici, M., Dolci, S. and Siracusa, G. (1987). Involvement of thiol-disulfate groups in the sensitivity of fully grown mouse oocytes to calcium-free medium. *J. Exp. Zool.* 243, 283-287.
- 21) De Felici, M., and Dolci, S. (1987). Cellular interactions of mouse fetal germ cells in vitro systems. *Curr. Top. Dev. Biol.* 23, 147-162.
- 22) Canipari, R., Bevilacqua, A., Colonna, R., De Felici, M., and Mangia, F. (1988). Actin synthesis is not regulated by granulosa cells in mouse growing and preovulatory oocytes. *Gamete Res.* 20, 1-10.
- 23) De Felici, M., and Dolci, S. (1989). In vitro adhesion of mouse fetal germ cells to extracellular matrix components. *Cell. Diff. Dev.* 26, 87-96.
- 24) De Felici, M., Dolci, S., and Siracusa, G. (1989). Influence of cumulus cell processes on oolemma permeability and lethality of isolated mouse oocytes cultured in Ca²⁺-free medium. *Gamete Res.* 23, 245-253.
- 25) De Felici, M., Dolci, S., and Siracusa, G. (1989). Fetal germ cells establish coupling with follicle cells in vitro. *Cell. Diff. Dev.* 28, 65-69.
- 26) Dolci, S., and De Felici, M. (1990). A study of meiosis in chimeric mouse fetal gonads. *Development* 109, 37-40.
- 27) De Felici, M., Camaioni, A., Russo, A. M., and Siracusa, G. (1990). Selective binding of mouse and human spermatozoa to beads coated with extracellular matrix components. *Molec. Repr. Dev.* 27, 337-343.
- 28) Dolci, S., Bertolani, M.V., Canipari, R. and De Felici, M. (1991). Involvement of carbohydrates in the hardening of the zona pellucida of mouse oocytes. *Cell. Biol. Inter. Rep.* 15, 571-579.

- 29) De Felici, M., Dolci, S., and Siracusa, G. (1991). An increase of intracellular free calcium is essential for spontaneous meiotic resumption by mouse oocytes. *J. Exp. Zool.* 260, 401-405.
- 30) De Felici, M., and Dolci, S. (1991). Leukemia inhibitory factor sustains the survival of mouse primordial germ cells cultured on TM4 feeder layers. *Dev. Biol.* 147, 281-284.
- 31) De Felici, M., Dolci, S., and Pesce, M. (1992). Cellular and molecular aspects of mouse primordial germ cells migration and proliferation. *Int. J. Dev. Biol.* 36, 205-213.
- 32) De Felici, M., Dolci, S., and Pesce, M. (1993). Proliferation of mouse primordial germ cells in vitro: a key role for cAMP. *Dev. Biol.* 157, 227-280.
- 33) Dolci, S., Pesce, M., and De Felici, M. (1993). Combined action of stem cell factor, leukemia inhibitory factor, and cAMP on in vitro proliferation of mouse primordial germ cells. *Mol. Repr. Dev.* 35, 134-139.
- 34) Pesce, M., Farace, M.G., Piacentini, M., Dolci, S., and De Felici, M. (1993). Stem cell factor and leukemia inhibitory factor promote primordial germ cell survival by suppressing programmed cell death (apoptosis). *Development* 118, 1089-1094.
- 35) Russo, M.A., Odorisio T., Fradeani, A., Laura Rienzi, De Felici, M., Cattaneo, A., and Siracusa, G. (1994). Low affinity nerve growth factor receptor is expressed during testicular morphogenesis and in germ cells at specific stages of spermatogenesis. *Mol. Reprod. Dev.* 37, 157-166.
- 36) De Felici, M., and Pesce, M. (1994). Growth factors in mouse germ cell migration and proliferation. *Progress in Growth Factor Res.* 5, 135-143.
- 37) Pesce, M., Siracusa, G., Giustiniani Q., and De Felici, M. (1994). Histotypic in vitro reorganization of dissociated cells from mouse fetal gonads. *Differentiation* 56, 137-142.
- 38) Pesce, M., and De Felici, M. (1994). Apoptosis in mouse primordial germ cells: a study by transmission and scanning electron microscope. *Anat. Embryol.* 189, 435-440.
- 39) De Felici, M., and Pesce, M. (1994). Interactions between migratory primordial germ cells and cellular substrates. In: *Germline Development*. Ciba Foundation Symposium No. 182. (Goodie J. ed.), pp- 140-153.
- 40) De Felici, M., and Pesce, M. (1995). Immunoaffinity purification of migratory mouse primordial germ cells. *Exp. Cell. Res.* 216, 277-279.
- 41) Pesce, M., and De Felici, M. (1995). Purification of mouse primordial germ cells by MiniMACS magnetic separation system. *Dev. Biol.* 170, 722-725.
- 42) Pesce, M., Canipari, R., Ferri, G.L., Siracusa, G., and De Felici, M. (1996). Pituitary adenylate cyclase activating-polypeptide (PACAP) stimulates adenylate cyclase and promotes proliferation of mouse primordial germ cells. *Development* 122, 215-221.

- 43) Cecconi S., Rossi G., De Felici M., and Colonna R. (1996). Mammalian oocyte growth in vitro is stimulated by soluble factor(s) produced by prenatal granulosa cells and by Sertoli cells. *Mol. Repr. Dev.* 44, 540-546.
- 44) De Felici, M. (1996). How life may come from death: lessons from reproductive biology. *Cell Death and Differ.* 3, 439-441.
- 45) Morena, A.R., Boitani, C., Pesce, M., De Felici, M., Stefanini, M.. (1996). Isolation of highly purified type A spermatogonia from prupubertal testis. *J. Andr.* 17, 708-717.
- 46) De Felici, M., Di Carlo, A., Pesce, M. (1996). Role of Stem Cell Factor in somatic-germ cell interactions during prenatal oogenesis. *Zygote* 4, 349-351.
- 47) Russo. M., Giustizieri M.L., Farini, D., Campagnolo L., De Felici, M., Siracusa, G. (1996). Expression of the p75 neurotrophin receptor in the developing and adult testis of the rat. *Int. Dev. Biol. Suppl.* 1, 227-228.
- 48) Pesce, M., Cerrito, M.G., Travia, G., Russo M.A., De Felici, M. (1996). In vitro development of growing oocytes from fetal and early postnatal mouse ovaries. *Int. Dev. Biol. Suppl.* 1, 229-230.
- 49) De Felici, M. (1997). Ovarian follicular atresia: a model for apoptosis. *Cell Death Diff.* 4, 260-261.
- 50) De Felici, M. (1997). Apoptosis in reproduction biology. *Cell Death Diff.* 4, 169-170.
- 51) Pesce, M., Di Carlo, A. and De Felici, M. (1997). The c-kit receptor is involved in the adhesion of mouse primordial germ cells to somatic cells in culture. *Mech. Dev.* 69, 37-47.
- 52) De Felici, M., Pesce M., Giustiniani Q., and Di Carlo, A. (1998). In vitro adhesiveness of mouse primordial germ cells to cellular and extracellular matrix component substrata. *Micr. Res. Techn.* 43, 258-264.
- 53) De Felici, M. (1998). In vitro culture systems for germ cells from mouse embryo: primordial germ cells and oocytes. In *in vitro germ cell developmental toxicology: from science to social and industrial demand.* *Adv. Exp. Med. Biol.* 444, 41-49.
- 54) Faussonne-Pellegrini, MS, Matini P. and De Felici, M. (1999). The cytoskeleton of the mesenteric neurons during murine embryonic life. *Anat. Embryol.* 199, 459-469.
- 55) Dell'Aquila, M.E., De Felici, M., Massari, S., Maritano, F., and Minnoia, M. (1999). Effects of fetuin on the zona pellucida hardening and fertilizability of in vitro matured equine oocytes. *Biol. Repr.* 61, 533-540.
- 56) De Felici, M., Di Carlo A., Pesce, M., Iona S., Farrace, MG, Piacentini, M. (1999). Bcl-2 and Bax regulation of apoptosis in germ cells during prenatal oogenesis in the mouse embryo. *Cell Death Diff.* 6, 908-915.
- 57) Di Carlo, A., Travia, G., De Felici, M. (2000). The meiotic specific synaptonemal complex protein SCP3 is expressed by female and male primordial germ cells of the mouse embryo. *Int. J. Dev. Biol.* 44, 241-244.

- 58) Maccarrone, M., De Felici, M., Bari, M., Klinger, F., Siracusa, G., Finazzi-Agrò, A. (2000). Down-regulation of anandamide hydrolase in mouse uterus by sex hormones. *Eur. J. Biochem.* 267, 1-8.
